

NOTE

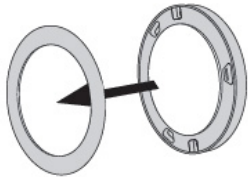

- **DO NOT** connect low-voltage LED puck lights to high-voltage power.
- Do not over tighten any screws.
- Maintain polarity on all connections, Red wire to positive (+) and Black wire to negative wire(-).

Tools Needed

Surface Mount

NOTE: This fixture is NOT made to recess mount

1. Rotate the decorative ring counter-clockwise and unscrew it.

2. Secure puck light to surface with included screws.

3. Snap lens back into place.

Follow instructions included in receiver or controller to properly hook up LED Ultra-Thin Puck Light system.
